

INTERIOR DESIGN

CLEAN | CONCISE | CONTEMPORARY

With keen creative vision and an impeccable eye for detail, Rosalie Szilagyi, Interior Designer, Allied ASID, has delighted a wide array of discerning clientele with her innate design talents. Throughout her career, she has used her artistic abilities to craft comfortable and unique living spaces, earning her high acclaim by the design community. Born and raised in New York City, from parents of European descent, Ms. Szilagyi has been greatly influenced by Manhattan's refined urbanism and derived much of her inspiration from its eclectic mix of flavors and cultures, as well as from many European cities. The Szilagyi family lineage is composed of architects and developers endowed with a unique capacity for spatial awareness and color sensitivity. The ability to blend a palette of limitless choices with her clients' ideals and desires is a challenge that Ms. Szilagyi enjoys most. Equally at ease with a number of design genres, she skillfully fuses diverse textures and materials to provide innovative design solutions for private residences, commercial spaces and hospitality projects. Ms. Szilagyi often draws upon her many years in the world of high fashion, which have taken her from the United States to Europe, working with such couture lines as Ralph Lauren, Calvin Klein, and Paloma Picasso, among others. After studying marketing and retail at the prestigious New York University, she was accepted into the coveted Saks Fifth Avenue Buyer Program. After several years at Saks, she was personally selected to launch the first Polo Ralph Lauren store in Munich, Germany. She returned three years later to New York to open Adrienne Vittadini's flagship location. She earned her associate degree in interior design with honors and is an Allied member of the American Society of Interior Designers. Prior to opening her firm, 42 West Design Studio, Ms. Szilagyi worked with an architectural firm and an interior design firm designing and managing commercial, residential and hospitality projects. Ms. Szilagyi's fascination with light and texture inform her interest in photography as a medium for creative expression and inspiration. Her photographic work has complemented her interior designs as she has received commissions in several commercial and hospitality projects. 42 West Design Studio has been engaged by clients throughout the Denver Metro area, the Rocky Mountain resort areas and other regions of the United States. Ms. Szilagyi maintains a select project schedule in order to dedicate the intensive time and attention that all of her clients deserve.
